EXPERIENCE PRODUCT

Sep 2026 – Dec 2026 | Brooklyn, NY

Chance AI, AStudio

Design Lead (Mentorship Mentee)

Partnered with producers and 8+ mentors to deliver weekly program milestones on schedule
Ran app audits and competitive analysis to prototype “Visual Skills Search,” an AI agent
Led user interviews, translating pain points into a cohesive brand identity to lift retention

Oct 2026 – Present | New York, NY

Claude Redesign

Product Designer, UX Case Study

Interviewed 3 Claude users and compared 15 products to find why side questions bury the main chat
Designed anchored branching for mobile and desktop in Figma, turning insights into 5 changes
Built an interactive mobile prototype in code with a timed 7-task usability test mode

Jan 2026 – May 2026 | New York, NY

Ekpyrosis

Senior Thesis, Product Designer · Emotion-driven immersive installation

Led concept and development end to end as a solo thesis project, advised by Prof. Carla Gannis
Defined the participant journey and system, linking phone interfaces to projections in TouchDesigner
Iterated through 5+ rounds of faculty critique and user testing with 60+ participants

Jun 2021 – Aug 2021 | Canton, MA

Bondit.io

Product Design Intern

Managed 5+ interns, setting deadlines and moderating meetings for weekly deliverables
Investigated user needs via an Instagram survey and formulated design solutions
Conducted heuristic evaluations of social apps (Clubhouse, Houseparty) and NFT platforms
Established initial branding through logo design, competitive analysis, and focus groups
